

Discover Carnuntum

6. June 2023 – 10.00 am

Speaker: Lars Daniels

Thanks to the area's special climate and topography, the red wines from Carnuntum are characterised by an incomparable freshness and liveliness. This guarantees not only invigorating young wines, but also those with wonderful ageing potential. Those who do not yet know Carnuntum in detail can gain a deep insight into the exciting red wine region on the Danube by speaking directly with its winemakers.

Note: Have at least 2 universal or red wine glasses ready for the tasting. Please chill the wines and open them at least 1 hour before the tasting.
